

SHAPIRO & Co
since 1979

Asscher Cut Diamond E colour Ring in Platinum Date circa 1980, SHAPIRO & Co since 1979

£3,750.00

Q: Can emerald cut be square?

A: The square emerald cut diamond is also known as the Asscher cut. The square emerald cut was developed in 1902, during the beginning of the Art Deco period in the early 20th century, and was named after its creator, Joseph Asscher, the owner of the Amsterdam-based diamond company, the Asscher Diamond Company.
