

## **Rolex Oyster Precision Speedking 6430** **£3,295.00**

An extremely rare find - a full set Rolex Speedking consisting of box and papers dated 1982 plus an additional Rolex service from 2005.

The Rolex Speedking, model 6430, features a 30mm stainless steel case, smooth fixed bezel, a beautiful silver dial with baton hour markers throughout and a plexiglass. We deliberately decided to leave the watch unpolished.

The watch operates from a manual wind movement, caliber 1225, and it is not water-resistant.

Fitted to an Oyster bracelet with a folding clasp that can fit a wrist of up to 19cm (2 links taken out).

Antique ref: CHW5044
