

Rolex GMT Master 1675 'Nipple Dial' Full set
£14,995.00

A fine example of an original classic GMT Master 1675 'Nipple Dial' that has barely been worn over the years with the original caseback sticker intact. Accompanied with original box, manuals and papers and believe it or not the original Watches of Switzerland receipt from the initial sale in 1979.

40mm stainless steel case with Yellow gold rotating bezel with black insert. Yellow gold crown. The dial and hands are original to the watch however there has been some aging / pitting to the hands that appears to have occurred naturally over the years.

Fitted to Rolex Yellow gold and steel Jubilee bracelet with folding clasp to fit a wrist to 20cm.

Automatic watch operating from a 1570 caliber movement providing a power reserve of up to 48.

A beautiful original collectors piece in exceptional condition and fine working order. Not only accompanied with its papers but condition wise would be hard to find a better one that hasn't had parts replaced.
