

## **Omega Speedmaster Mark II 145.014 1976** **£3,750.00**

We are delighted to be able to offer yet another vintage delight - the Omega Speedmaster Mark II 145.014 presented as a full set including an inner box, manuals, wallet and international warranty dated July 1976. The watch has had a recent service but it has never been polished, which we don't intend to do either, unless requested of course. Recent 2023 full independent service.

This Omega Speedmaster features a 42mm stainless steel case, fixed black bezel with a tachymeter insert, black dial with baton hour markers and three sub-dials positioned at 3, 6 and 9 o'clock, respectively. Omega crown and both pushers intact.
