

Omega Seamaster Chronograph 2451
£4,595.00

This model, 2451, has had a production line from around 1946 to 1968 when the 321 movement was replaced with the 861 which is slightly simpler than its predecessor.

The Seamaster Chronograph features a 35mm stainless steel case, champagne dial which over the years has turned into tropical, three sub-dials positioned at 3, 6 and 9 o'clock and a plexiglass.

The watch operates from a manual wind movement, caliber 321, as mentioned beforehand. Despite being water-resistant we would advise against using it in water.

Fitted to an unsigned brown leather two-piece strap with an original Omega buckle.
