

Pulsar Military Watch G10
£495.00

This Pulsar Military G10 was issued around 2004 under the Nato ref 6645.

In general good condition and fine working order this quartz powered military watch operates from a Seiko movement made to the specifications of Nato.

Date shown at '3', the dial like most similar military watches is black with bold hour markers and seconds shown by the track around the outside. Plexiglass shows some marks and scratches however we have chosen to leave original.

37mm steel Matt finish case (43mm to 43mm lug to lug).

Rip proof lugs, super luminova dial and hands, high resolution field dial.

Screw back case shows all markings and credentials.
