Thought to be dated around the mid 1960's and operating from a Valjoux 92 caliber movement.

38mm steel crown with rotating steel black bezel. Black Matte dial with two sub dials. Original hands with tritium lume that has faded to give a wonderful colour on the hands and the baton hour markers.

Original N signed crown, caseback shows original markings.

In terms of condition, bezel on the whole appears in good all round condition with no significant marks or scratches other than what would be expected of a watch from this age. Case shows scratches again consistent with age. Strap is a Nato style later strap.
