

Zenith El Primero Pilot Chronograph
£3,200.00

This discontinued Zenith El Primero Pilot Chronograph watch is an absolute stunner.

A big 42mm stainless steel case with smooth bezel houses an excellent in-house Zenith movement that gives this automatic watch a power reserve of up to 50 hours all displayed in the exhibition case back. What's more is that the movement was fully serviced by Zenith in 2017 and documented too.

Matte Black dial with white baton hour markers and hands with the date aperture to '6' and the two chronograph sub dials side by side in the centre of the watch. Sapphire scratch resistant crystal and waterproof to 50 meters. The famous El Primero Chronograph Stopwatch and chronograph function.

Currently fitted to a generic Burgundy coloured leather strap with white stitching however accompanied with the watch is a Zenith signed black crocodile leather strap that appears to have only been worn a handful of times. In addition, there is a brown leather Zenith signed strap and buckle also accompanying the watch.

Having had a full service with Zenith in 2017 totalling £480.00 we have the original crown that was replaced in addition to the service receipt and service card.

No box or papers but Zenith service pouch and original UK purchase receipt.

We have chosen not to polish this watch and having put through testing there was no need for a further service. 12 Month Guarantee accompanies the watch.
