

**Tudor Day Date**  
**£2,450.00**

A hard find! Trying to get a Tudor Day Date such as this watch with its original box and papers is not easy. This one dated to 1989 is in very good all round condition considering the watch is over 30 years old.

Some marks and scratches clearly shown and some discolouration to the gold plated bracelet however we have purposely chosen to leave this watch unpolished. Having passed through our workshop the watch is offered in fine working order around +/- 7 seconds per day.

36mm stainless steel case with yellow gold fluted bezel and yellow gold crown. Champagne coloured dial with baton hour markers and the date at 3 with the day at the top.

Fitted to a steel and gold plated bracelet with folding steel clasp signed Tudor logo.

Automatic movement.
