

SHAPIRO & Co
since 1979

**Diamond Tsavorite Green Garnet Pendant in 18ct White Gold date circa 1980, SHAPIRO & Co since 1979
£5,750.00**

Q: What is Tsavorite?

A: Although named after the Tsavo East National Park in Kenya, tsavorite (sometimes called tsavolite) was first discovered in Tanzania in 1967. This variety of grossular garnet became a popular gemstone via a marketing campaign by Tiffany & Co. in the 1970s.

Origin	Italian
