

**Audemars Piguet Ultra thin 18ct Yellow Gold Manual Wind  
£3,800.00**

An exceptional dress watch, this Audemars Piguet Ultra thin is in near perfect condition and unbelievably is available under £4000.00!, Considering its condition and the fact it has an AP signed black leather strap and AP signed gold buckle may well make this the best version available.

An early 90's model (by the serial being a C) the watch itself both case and crystal are 9/10 without any marks. Yellow gold 18ct ultra thin case houses the manual wind AP 2080 movement, its incredible to think that movement sits inside just a thin (5mm) case.

Perfect white dial with not a blemish on it. Classic AP black Roman Numeral hour markers with silvered hands.

The black leather AP strap again is in excellent condition showing very few signs of wear anywhere and its fitted to an 18ct yellow gold AP buckle.
