

Omega Speedmaster Reduced 3802.70.56
£2,050.00

Omega Speedmaster reduced with a difference, a rare factory Omega Mother of Pearl dial.

39mm stainless steel case this model 3802.70.56 Speedmaster operates from a Calibre 3220 movement giving this automatic watch a power reserve of up to 42 hours.

Dated to 1998/99 by its serial number the overall condition of this watch is excellent and although not documented it has undergone a full recent service and has been confirmed by a visual check from our watchmaker.

Polished case the bezel tachymeter shows a little wear but this is to be expected. Dial and hands in excellent condition with no flaws on the Mother of Pearl dial and hour markers unblemished. Hands and hour markers still show luminous.

New leather generic strap with original Omega Deployment clasp in steel that is in excellent condition. Strap can be changed upon request.

Excellent all round condition.
