

OMEGA Constellation 168.005
£1,400.00

A fine example of this vintage Omega Constellation from circa 1966. Retained much of its original beauty and appears to have had very little intervention or changes over the years.

The lugs a beautifully designed and stand out on this watch! Gold plated and steel the case is 35mm with a silvered dial and gold coloured baton hour markers. Date window at 3. This is an officially certified chronometer automatic movement watch. Operating from a 561 Calibre using 24 jewels it provides a power reserve of around 40 hours.

In fine working order and the condition overall is excellent, still sharp defined edges and case with the Seamaster emblem clear to see on the case back. The dial has aged well with very little discoloration or pitting.

Fitted to a generic brown leather strap with buckle.

Antique ref: chw5500
