

Jaeger-LeCoultre 500321
£3,950.00

This elegant Jaeger-LeCoultre wristwatch from the 1980s is a self-winding timepiece in 18K yellow gold. It features a polished two-body case with straight lugs and a sapphire crystal. The champagne dial displays the date, with black baton hands indicating the time.

The watch is powered by the reliable Caliber 900 movement, which is rhodium-plated with 28 jewels and includes a straight-line lever escapement, monometallic balance, shock absorber, self-compensating flat balance spring, and a micrometer regulator.

With a diameter of 34 mm and a thickness of 7 mm, this watch combines style and comfort. Both the dial, case, and movement are signed, affirming its authenticity.
