

Cartier Agrafe Diamond Onyx Bead Bracelet **£39,000.00**

The bracelet features three distinct rows of intricately carved onyx beads, a striking gemstone celebrated for its deep, captivating black hue. The onyx beads, carefully hand-selected for their uniformity in colour and size, provide a rich backdrop that enhances the brilliance of the white gold and diamond accents.

The clasp, taking inspiration from the original designs used in Cartier's 1930s collections, is meticulously crafted from 18k white gold. An ensemble of shimmering, ethically sourced diamonds generously adorns the Agrafe clasp, producing an eye-catching sparkle that complements the mysterious allure of the onyx beads.
