

**Cartier Agrafe Diamond Onyx 18ct White Gold Long Earrings**  
**£12,000.00**

The Agrafe collection from Cartier focuses on a motif that was inspired from the clasps of Parisian corsets. The motif, taken from Haute Couture, is translated with creativity into varied forms of fine jewelry. These earrings, designed in a lovely drop silhouette features the signature motif which is given due highlight by encrusting it with shimmering diamonds of approximately 1.50ct. The creation is made from 18ct white gold and is equipped with clip-on back closure. The design of the pair also includes round onyx beads tipped with beautiful pink tourmaline. With each move and twirl you make, this Cartier beauty is going to catch the light and release sparkles of joy.
