

Omega Seamaster 166.037
£995.00

Watch: Omega Seamaster 166.037
Stock Number: CHW5927
Price: £995

This Omega Seamaster 166.037 is all about the dial, yes it shows some marks and scratches, wear and tear but then again, it's from 1968! Could be polished up however we see its value and beauty in the way it is but if you want us to polish then we can.

34mm stainless steel case with original crown and seamster stamped case back. Silver coloured baton hour makers to match the hands. The dial is a silver colour giving it a beautiful vintage look.

Operating from a 552 Calibre movement that powers this automatic watch which is fine working order and guaranteed to that effect.

Fitted to a generic high quality brown / beige colour strap and steel buckle.

Our View - This Vintage Seamaster 'is what it is' in many ways and that is a classic 60's Automatic Seamaster most likely never to have seen a polish or any major work before in its past so as original as it can be (and of course it's at price that can't be beaten)
