Stock Number: CHW6001
Price: £2750.00

- - Professional Images due Shortly, this watch has only just arrived in stock - -

A very fine example of a classic Cartier Tank Francaise Chronoflex, exceptional condition throughout, complete with box (missing cushion) service pouch, manuals, Original certificate and a full set of links.

In perfect working order with a recent battery change and service, pressure tested too! No major marks or scratches anywhere to be seen we would mark this watch a strong 9/10 for condition. Reference 2303 or W51001Q3 depending on where you search. This watch was first sold in the UK by Cartier in December 1998.

Some minor natural discolouration around the edges of the dial as would be expected on a watch of such age.

White dial with the classic black Roman Numeral hour markers with navy blue hands. Blue stone intact perfectly and recently polished. Case size 38mm by 36mm and made from stainless steel as is the full length strap.

Our View - A better example you might not be able to find.
