## Art Deco Onyx and Old European Cut Diamond Target Ring

This antique French Art Deco platinum ring features a 2.00-carat old European cut diamond, graded H colour and Si1 clarity. The central diamond is set within a cushion-shaped onyx surround, emphasizing its bold geometric design, characteristic of the 1920s Art Deco period. The shoulders are accented with micro-set single-cut diamonds, and the intricate hand-engraved under-gallery adds a refined touch.
