

**Cartier Must De Cartier Manual Wind**  
**£1,750.00**

Watch: Cartier Must De Cartier Manual Wind  
Stock Number: CHW5946  
Price: £1750.00

Cartier, Cartier, Cartier it seems to all be about Cartier right now. This Cartier Must De Cartier Tank Vermeil is another fine example.

This Cartier Must De Cartier Manual Wind through to be from the early 90's is in exceptional working order had just come through our workshop having had a full complete service. Running at around +2/3 seconds per day!

Many different configurations of these Must De Cartier models can be found but this one is the larger size model at around 31mm by 25mm in size and operating from a manual wind movement rather than the more commonly found Quartz battery version.

In unbelievable condition its clear this watch has been well looked after, some minor marks and scratches as you would expect of a watch of this age however nothing significant, the gold plating remains throughout and in our view one of the best examples we have had.

Off white / cream / Champagne coloured dial with the classic Cartier Roman Numeral hour markers in black. Dial stamped Cartier and in all round good condition. Stone intact on crown.

Our View - an excellent version of this iconic and classic Cartier model.
