

TAG Heuer 2000 Chronograph Quartz
£695.00

Watch: Tag Heuer Professional 2000 Quartz 272.006
Stock Number: CHW6010
Price: £695.00

Unusual to find this early 2000's Tag Heuer Professional 2000 Quartz model reference 272.006 with a black dial. Quartz powered with a recent battery change.

This Tag Heuer Professional has a 38mm stainless steel case with steel rotating bezel. Black dial with pointed hour markers that have aged beautifully to give a natural patina that is off white / yellow in colour. Silver subdials with a date window to 3.

Working perfectly with the overall condition as worn and loved but certainly nothing significant showing to take away from the watch itself. Sapphire scratch resistant crystal.

Fitted to its original black leather strap with a Tag Heuer signed steel buckle. Shows wear but we have chosen to leave as it is.

Vintage feel and look of a classic Tag Heuer Chronograph.

Our View - Bundles of value, good fun, durable and retro.
