

Exaequo Softwatch Desk Clock
£595.00

Clock: Exeaquo Softwatch Salvador Dalli
Stock Number: CHW6056
Price: £595.00

By Exeaquo and Softwatch this is a wonderful unique and quirky Desk Clock this Salvador Dalli inspired desk clock is in near perfect condition and perfect working order.

Accompanied with its manual, guaranteed papers (undated and signed) and box.

Measuring 95mm at its highest point to around 55mm at its widest point this gold-plated desktop makes a statement and is certainly a talking point. Recent battery change and quartz movement. Weighing around 180g.

White dial with black Roman Numeral hour markers in the style synonymous with Exeaquo and SoftWatch's take on Salvador Dali and some consider a take on the Cartier 'Crash'. The design is actually inspired by Salvador Dali's famous melted clock.

Thought to be an early 90's model made in Switzerland. Heavy gold-plated steel case and stand.

Condition - this is excellent and clearly been barely used over the years.

Our View - A head turning statement piece hard to find or see anywhere else.
