

Vietnam US Navy Wristwatch
£395.00

Watch: US Navy Signed Manual Wind Watch
Stock Number: CHW6045
Price: £395.00

What can only be described as a bit of fun, a talking point maybe? Working at about +/- 30 seconds per day this US Navy signed wristwatch was thought to be made in Vietnam by internals sent from the US.

Hard to date and hard to state whether this model was made by US internals or Chinese or Vietnam internals which was later the case.

Bold numbers that have gone an off white colour almost yellow due to age, the dial signed 'US Navy' New York, Caseback also marked as is the movement.

36mm stainless steel fitted to a generic fabric Nato style strap.

Although we can not confirm the date of manufacture or much more precise information about this watch it should be brought as a fun novelty item in our view.
