

**Tudor Royal 9ct 1960's with Box**  
**£1,550.00**

#### Description

Watch: Tudor Royal

Stock Number: CHW6048

Price: £1550.00

This Vintage Tudor Royal has had the full treatment and rightly so!

Recently serviced in house it is running exceptionally well, gaining just 5 or 6 seconds per day and with a healthy amplitude, this manual wind watch will run and run.

34mm 9ct gold case with prominent lugs that certainly stand out and make this watch feel bigger than it is.

Off white / cream / ivory coloured dial that has a certain look to it that only a natural aging can give. Slightly discoloured in places which is part of its charm. Number hour markers which is unusual as most have baton hour markers. Gold coloured hands. Signed dial Tudor Royal.

Condition - Really exceptional condition, obviously we have chosen not to polish but it shows barely a mark considering its age which we think is mid 60's. Caseback clear of any engravings.

Fitted to a black generic strap with gold coloured buckle.

Our View - Simply an incredible Vintage Tudor Royal, fully serviced, exceptional condition, with original box and a 12-month guarantee - a watch fit for a King!
