

Tag Heuer Professional WD1211
£550.00

Description

Watch: Tag Heuer Professional WD1211

Stock Number: CHW6107

Price: £550.00

This Tag Heuer Professional from the mid 90's, with Box and Papers and Granite coloured dial represents excellent value. It's in great all-round condition too, despite its age. Having been first sold in 1995 there are no major marks or scratches with the crystal being perfect. The bezel as always on these shows some fading.

Accompanied with both inner and outer box, (outer box however does show some wear), manual and original warranty card. Additional links included so that the watch can fit a wrist to 8.5 inches.

This Tag Heuer Professional WD1211 has a 37mm stainless steel case with rotating steel bezel that works although is a little loose and spins freely, this does not affect the watch. Wonderful granite style dial with naturally aged hour markers. Date aperture to '3'.

Original Tag Heuer steel signed crown and original bracelet with double fold clasp.

Recent battery change, leaving it in perfect working order.

Our View - A lot of watch for a very reasonable price.
