

**Movado Zenith 01.0180.434 Dual Branded El Primero
£3,500.00**

Dual branded Movado Zenith Automatic Chronograph with an attractive patina spread across the dial. The current El Primero was produced in the early 1970s the era when Movado and Zenith were both under the same group and sister brands.

The 37mm case and bracelet show no signs of polishing and exhibit clearly defined edges. On the crown we have the Movado and Zenith square logo from the early 1970s the same as used for the dial's applied logo. An integrated stainless steel bracelet with the Movado and Zenith square logo completes the look of this vintage charmer. Date window between 4 and 5 o'clock, a classic feature of the El Primero.
