

**Omega 2910-5**  
**£725.00**

Watch: Omega 2910-5  
Stock Number: CHW6125  
Price: £725.00

This is a Jumbo sized Omega for the era being dated to 1950 by the serial number. A nice big size case at 35mm. Understand, plain and original just a really nice vintage Omega.

White dial that shows little sign of age or discolouration tells us the watch has not been a daily wearer and perhaps left for best occasions. Steel case with big steel lugs we have chosen to fit this watch to a brown leather strap with steel buckle but of course this could be changed upon request.

Silver baton hour markers to match the hands, steel generic crown. Manual wind movement that runs at around +30 seconds per day.

Condition - Overall is in good condition, no significant marks to dial, glass or case although you will see some wear and tear and minor marks throughout as you would expect of a watch of this age.

Can be serviced upon request, can be polished upon request and strap can be changed upon request. 12 Month Guarantee and insured next day shipping or viewing in Mayfair, London.
